### THE MUELLER GROUP COMPLIANCE WITH PBT TSCA SECTION 6(h)

The Mueller Group, Inc. is aware of the U.S. Environmental Protection Agency's (EPA) latest rule under Section 6 of the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21<sup>st</sup> Century Act. Under this act, there are certain persistent, bioaccumulative and toxic (PBT) chemicals that, as of March 8, 2021, are prohibited for use in all manufacture (including import), processing and distribution in commerce of five PBT chemicals/substances, or products or articles containing the defined PBT chemicals/substances, with some exclusions.

The Mueller Group is a wire and cable distributor ONLY and does not produce, manufacture or construct any of the wire and cable products that are sold. Moreover, The Mueller Group only sells products to other businesses and not end users. To the best of The Mueller Group's knowledge, all of the products that are sold are compliant with PBT TSCS Section 6(h) dated March 8, 2021. More detailed information about a wire or cable should be directed to the actual manufacturer.

This document is valid without signature and replaces all former statements made by The Mueller Group concerning PBT TSCA under Section 6(h). Should you require further information, please contact [sales@muellergroup.net](mailto:sales@muellergroup.net).
